ABOUT US:

Stream Oils and Lubricants LLP is leading Industrial and Automotive Lubricant & Pump Set oil Company in India.

At Stream oils, oil is blended from selected high quality base oils, and imported additives to manufacture world class lubricants. We have a state of the art laboratory to monitor all the quality aspects right from raw material input to finished blended products. We have developed a wide range of High performance lubricants, Pump Set, and Engine oil for both the automotive and industrial sectors. The entire range of products is environment friendly that ensures full value for money. Our stringent quality control system and strong R&D base and endeavor towards quality up gradation & product development has helped us maintain a long term relationship with our clients.

OUR QUALITY POLICY :

We at **Stream Oils and Lubricants LLP** commit ourselves towards total customer satisfaction by ensuring the best and consistent quality product at the most competitive rate/price and timely delivery through continual improvement in our Quality Management Systems.

OUR VISION

To be the foremost Indian lubricant manufacturing company most admired for its quality Products, Eco friendly & reliable performance and best services with a prospective of global excellence.

OUR MISSION

To provide quality products at a price that reflects true value along with unparalleled support services by highly trained and well motivated work force meeting customer expectation and requirements.

BS6
READY

Product Description: Stream SAE 20W-40 is Premium Engine Oil designed from a combination of high quality mineral base stocks with high performance additives to exceed the highest performance requirement of crankcase and gear lubrication in 4-stroke motor cycles.

Features & Benefits:

- ◆ Recommended for lubrication of all new generation four stroke motorcycle.
- ◆ Exceeds the performance requirements of API SM.
- ◆ Specially formulated premium 20W-40 oil for Engine's Long Life.

Performance Level: Meets API SM Specification
